Mobile phone: 070 – 754 41 01

E-mail: martinson@gmail.com

Dear reader,

This is a short CV to hopefully catch the interest of you for me. My name is Martin Gustafsson and is currently working as a market surveillance official at the Department of Products at the Swedish Electrical Safety Authority. It involves everything from day-to-day work with inspecting products, checking documents and participating in numerous meeting (up to EU-level) in ATEX, LVD and EMC.

A summary is hard to write. I asked my workmates for some words describing me:

Driving, systematic, self-starting, verbal, detail aware, positive, adaptable, quality-conscious, outreach, direct communication, calm

EDUCATION

Karlstad University

B.Sc.E.E with focus on electronics.

WORKLIFE

Market Surveillance Official | **Elsäkerhetsverket**

2007-02 –

As an market surveillance official of the Electrical Safety Department's Department of Products, I work with everything from market surveillance, standardization (national and international) and EU work with directives. At work, I am also involved in communication. This usually means communication externally on the web with manufacturers, importers, distributors and end-users. The work involves trips and meetings with economic operators (importers, manufacturers and trade associations).

I also participate in EU-wide projects concerning market surveillance and risk analysis. I have also been project leader of such projects.

SOME QUALIFICATIONS

- ☐ Extreme knowledge on ATEX, LVD and EMC. I was the project leader of implementing the EMC-directive in Sweden. I have also taken care of the ATEX-directive for many years in Sweden.
- ☐ Cooperative and responsive
- ☐ Fluid in English. Little, but useful, knowledge in the German language.
- ☐ Keeps up with technology, from components, to products and up to system level.
- ☐ Works very well in projects.
- ☐ Deep knowledge in standardization (IEC/CENELEC/SEK).
- ☐ Really good at writing articles and promoting them on the web, radio and television.

REFERENCES

Will be given on request.

Endorsement from LinkedIn.

Magnus Olofsson

Electric power systems for a sustainable future

September 12, 2011, Magnus was senior to Martin but didn't manage directly

Martin is very productive and dedicated in his work. He has a good mood, is helpful and contributes to a good spirit in his team with a great sense of humor. I very much recommend Martin.

WHO AM I?

In my spare time I spend a lot of time with my family (wife, daughter and son). The music has always been a major part of my life and I am both building, repairing, designing and playing on synthesizers. When summer comes, it's not completely impossible to see me on my roadracing motorcycle along the roads or in the woods on my enduro motorcycle. At the moment, I live with my family in Karlstad.

Sincerely

Martin Gustafsson
