Achievements

- Trade qualified as an Electrician, WA and Qld
- Ran own business
- EEHA Instructor
- Accredited auditor in QLD
- Local Government Swimming Pool Manager
- Gym/Fitness Centre Manager

Computer Skills

- Microsoft Word, Excel, Project, Outlook
- Very quick to pick up other software required

Employment History

I closed my business Q-Inspect to be a carer for my immediate family. This is evident in my CV during the period of 2014 and October 2017. This time I took a step away from my electrical career and focus on my family as they needed my support. I took on small contracts for close colleagues during this period to maintain my electrical skill level and knowledge in Hazardous areas. My circumstances have changed now and looking to reenter the work force.

Company: AGC- Chevron ISCU Wheatstone Operations
