ELECTRICAL - COMMISSIONING, CONSTRUCTION, MAINTENANCE

♦ Petroleum & Gas Industry ♦ Energy/ Power Generation ♦

A highly adaptable, conscientious and self motivated Commissioning Technician with 20 years of broad ranging experience in the oil and gas industry, petrochemicals, power stations, chemical works, and industrial environments.

Excellent communication skills and a logical approach to work, coupled with long standing practical experience in the workplace in all aspects of the construction industry. Employment experience has demanded a high level of personal responsibility, with a full understanding of safety procedures including risk assessments, method statements and permits to work systems (ISSOW). I also work well both within a team environment and on an individual basis in order to meet employer and business needs.

| • Quality Assurance | • Permit to work procedure | • Prep. of Method statements |
| • Quality Control | • Competent Electrical Person | • Prep. of Risk Assessments |
| • Team Leadership | • Commissioning Q1016785 | • Procedure preparation |
| • Inspection | • Construction | • Computer Literacy |
| • ATEX , DSEAR, CompEX | • Client Liaison | • Reporting |
| • Completions Systems | • Material Selection | • Material Specification |

PROFESSIONAL QUALIFICATIONS

City and Guilds 235001 NVQ L3 (Electrical Installation Engineering)
AM 1+2
Electricity At Work Regulations 1989 (**EAWR**)
C&G 2381 (BS – 7671 IEE Wiring Regulations)

OTHER QUALIFICATIONS

COMPEX [Units 01,02,03 & 04]	Working at Height Unit 2
CCNSG Safety Passport	BOSIET, Medical & M.I.S.T.
First Aid For Electric Shock	ISSOW L1 BG & BP
BP Electrical Safety Rules	ISSOW Control Of Works
CMP Glanding /Splicing Course	IRATA L1 No.1/70525
Confined Space Entry IOSH Approved Escape Sets & SCBA	

Fully PC literate with Microsoft programs (Word, Excel, Adobe, Lotus Notes etc.,) Also conversant with specialist programs such as ABP Hazair Data Base and Cable Schedule Programs.

PROFESSIONAL EXPERIENCE AND SIGNIFICANT ACHIEVEMENTS

ELECTRICAL TECHNICIAN PA CEP IAE IAC

June 15 - Present

AMEC FW – BP Clair Ridge Project

- Pre-Commissioning & Commissioning of Switch Boards & DB's
- Performing Authority PA, Competent Electrical Person CEP, IAE, IAC
- Completion of Pre Commissioning Work Packs for work to be executed within the Project
- Inspection and Verification of drawings/Equipment related to the project.
- Inspection, Testing and verification of Electrical works offered up by construction as Mechanical Complete Systems offered up for handover to commissioning
- Inspection of and ensuring ATEX compliance.

ELECTRICAL COMMISSIONING TECHNICIAN

May 14 - June 15

Amec Group – BG Everest/Lomond Platform

- Performing Authority PA
- Inspection and verification of 10Kva UPS Upgrade
- Monitor and control the status of punch list and exception lists relevant to quality dossiers
- Commissioning installed electrical equipment, loop checks.
- Inspection of and ensuring ATEX compliance.

ELECTRICAL COMMISSIONING TECHNICIAN

May 14 - May14

AMEC GROUP - Judy Platform. Charge Hand

- Pre-Commissioning & Commissioning of Switch boards Including the testing and commissioning of all L.V. circuits.
- Preparing test work packs.
- Inspection and verification of Electrical works offered up by construction as Mechanical Complete Systems offered up for handover to commissioning.
- Commissioning of all equipment (switch gear, trip alarms, door closures etc.) including loop checks
- Confidently leading a team to successful completion of various work scopes
- Ensuring that all necessary quality records are identified and retained in accordance with client and regulatory requirements.
- Monitor and control the status of punch list and exception lists relevant to quality dossiers
- Provide progress information for incorporation of project reports

ELECTRICAL COMMISSIONING TECHNICIAN

April 14- April 14

Schlumberger Centrica Grove Platform

- Proppant Removal Project
- Conference Calls Prior to visit
- Checking all Work scopes and information prior to installation
- Commissioning of all E&I equipment installed
- Preparation of site specific method statements / risk assessments
- Ensuring that all necessary quality records are identified and retained in accordance with client and regulatory requirements.
- Monitor and control the status of punch list and exception lists relevant to quality dossiers
- Provide progress information for incorporation of project reports

ELECTRICAL TECHNICIAN

Feb 14 - Feb 14

Zeefax Ltd SCR Systems. Taqa Eider Platform

- SCR Top Drive Upgrade
- HV Isolation
- Bus-bar Upgrade due to higher current demand (1200 - 1450 A DC)
- Ensuring that all necessary Inspection & test records are correctly filled
- Provide progress information for incorporation of project reports

ELECTRICAL TECHNICIAN

April 13- Dec 13

Amec Group. Jasmine Platform

- E&I Installation and preparation for pre-commissioning
- Preparation of documentation for handover to commissioning.
- Carrying out loop tests on all power/control circuits, marking up 'as build's' and signing off test sheets for associated circuits.
- Monitor and control the status of punch list and exception lists relevant to quality dossiers
- Provide progress information for incorporation of project reports

E&I ATEX LEAD INSPECTOR & COORDINATOR

Nov 09- April 13

BASF Chemicals.

- Forward Inspection Planning
- Maintenance of all plant E&I equipment
- Supervision of Atex inspectors
- Issue Permit To Work Certs and Tool Box Talks
- Updating Hazair data base
- Compile and issue EX Inspection work packs for completion (Word, Excel, Lotus Notes)

INDUSTRIAL ELECTRICIAN

Nov 09 - Nov 09

SPE EI - WHS. Staythorpe Power Station

- Installation of containment for all cabling.
- Glanding and Termination of cables and Instrumentation.
- Monitor and control the status of punch list and exception lists relevant to quality dossiers
- Provide progress information for incorporation of project reports

INDUSTRIAL ELECTRICIAN

Sep 09 - Oct 09

Best Connection. Keadby Gas Powered Station

- Re-routing of fire damaged cables
- Use of Scotch Cast joints
- Inspection & Testing prior to commissioning
- Work progress reports and completions

INDUSTRIAL ELECTRICIAN <i>Drax Power Station. Best Connection</i>	<i>May 09 - Sep 09</i>
INDUSTRIAL ELECTRICIAN <i>Lindsey Oil Refinery. Best Connection</i>	<i>Feb 09 - May 09</i>
INDUSTRIAL ELECTRICIAN <i>Ferry Bridge Power Station. NRL</i>	<i>Sep 08 - Dec 08</i>
INDUSTRIAL ELECTRICIAN <i>Drax Power Station. Best Connection</i>	<i>Dec 07 - Sep 08</i>
INDUSTRIAL ELECTRICIAN <i>Cenelec Easington Gas Terminal. Interserve Ltd</i>	<i>Nov 07 - Dec 07</i>
INDUSTRIAL ELECTRICIAN <i>Drax Power Station. Best Connection</i>	<i>March 07 - Nov 07</i>
ELECTRICIAN <i>CFS Ltd Hull. Shopfitting</i>	<i>July 06 - March 07</i>
ELECTRICIAN <i>Sunman Electrical</i>	<i>May 05 - July 06</i>
INDUSTRIAL MAINTENANCE ELECTRICIAN <i>Cleveland Bridge UK.</i>	<i>Nov 02 - May 05</i>
COMMERCIAL ELECTRICIAN <i>Hull KC Stadium. Esca Agency</i>	<i>Oct 02 - Nov 02</i>
Electrical Installation Eng Apprenticeship <i>Humber Electrical Eng Co Ltd</i>	<i>Sep 96 - Oct 02</i>
